Star city, building no 21, flat no 102,
shirwal, tal-khandala, Dist-Satara 
Shirwal, Maharashtra (412801)

EXPERIENCE SUMMARY

- 11 years of IT and Enterprise Integration (webMethods) experience.
- Hands on experience in using webMethods various versions 6.5/8.2/9.x
- Hands on experience in **webMethods components:** Integration Server, Developer, My webMethods Server (Territories, Territory Gateways, Broker documents), Trading networks (Processing Rules, Partner Profiles, Canonical documents, Document Attributes), Deployer PLUS **other components:** putty, WinScp, FileZilla, basic SOAP UI, basic SQL Developer, basic UNIX/LINUX commands.
- Worked as webMethods developer, webMethods support, webMethods admin (partial).
- **webMethods Developer components:** flow service (new interface for new requirement PLUS bug fixes, enhancements), webMethods triggers, canonical documents, Pub-Sub model, JDBC adapter connections, adapter notifications, ports, certificate import, REST API, WSDL consumer, flat file schemas and dictionary, xml documents, JSON data structures, extended settings, SFTP, FTP, broker documents syncing, removal of duplicate broker documents.
- **webMethods Admin components:** Deployment; webMethods triggers, schedulers, polling notifications, adapter connections on off; server start stop using readymade commands, broker start stop using readymade commands; MWS components deployment i.e. document attributes, canonical documents, threads killing, processing rules, territory gateways.
- **webMethods Support:** flow service debug, resolution of tickets within or before desired time.
- Good team player with strong communication, interpersonal, time management and presentation skills.
- Experience in developing critical solutions as per business requirement.
- Good understanding of end-to-end business requirements.
- Open for onsite opportunity on deputed basis. Already have onsite visit experience.

LTIMINDTREE PROJECT EXPERIENCES

Project 1

- **Project Name:** Legacy_Support for Cement Manufacturing
- **Team Size:** 20
- **Start Date:** April 2020
- **End Date:** Till Date
- **Project Description:** The scope of the project is to develop interfaces (new requirement, bug fixes, enhancements) and provide application support for all the webMethods interfaces.

Role & Contribution: Architect

- Co-ordinated with all stakeholders (internal and external) to meet the business requirement and helped them in resolving issues.
- Co-ordinated directly with clients (via calls or emails) for new requirements, issue resolution, estimate calls, etc.
- Helped team members in understanding the requirement, developing critical interfaces OR enhancements, in bug fixing for seamless integration of data into target application.
- Involved in integration (application and operation) production support of 20+ template and country specific flows.
- Involved in integration development and deployment of template and country specific flows across various environments.

EDUCATION

- Bachelor of Engineering (IT) in 2012, Pune

ACHIEVEMENTS AND AWARDS

- Received appreciations from country users for multiple tasks in below projects 1, 2, 3 .
- BU Star Award Winner in 2023, 2020, 2016 Quarter.
- Received Client Appreciation Award during client visit in August 2017.
- Part of project KT transition (to take whole project ownership from different company) in below projects 2,7
- Visited onsite (Spain, Madrid) to take KT transition for project 7.

Project 2

- **Project Name:** Eversource Energy
- **Team Size:** 10
- **Start Date:** July 2019
- **End Date:** March 2020
- **Project Description:** The scope of this project is to provide application support for all the webMethods servers

Role & Contribution: Project Leader and contributed as webMethods Admin (Offshore SPOC)

- Involved in code deployment
- Involved in handling different admin related activities
- Involved in making team members understand the scope of project and activities related to same.

Project 3

- **Project Name:** Catalent Pharma Solutions
- **Team Size:** 15
- **Start Date:** Jan 2019
- **End Date:** June 2019
- **Project Description:** The scope of IMSS is to post successful and erroneous data details of different MPD messages to Telemetry app and Sharepoint site

Role & Contribution: Team Leader

- Involved in development and golive of MPD-IMSS
- Co-ordinated with internal and external stakeholder to understand the business requirement for the integration flows.
- Involved in end to end testing, IQ preparation and OQ support.

Project 4

- **Project Name:** Catalent Pharma Solutions
- **Team Size:** 15
- **Start Date:** June 2018
- **End Date:** Dec 2018
- **Project Description:** WERUM Integration interfaces using webMethods and JDE 9.1 - Manufacturing module

Role & Contribution: Team Leader

- Involved in development and golive of WERUM interfaces.
- Co-ordinated with internal and external stakeholder to understand the business requirement for the integration flows.
- Involved in end to end testing, IQ preparation and OQ support.

Project 5

- **Project Name:** Catalent Pharma Solutions
- **Team Size:** 15
- **Start Date:** May 2018
- **End Date:** June 2018
- **Project Description:** MPD-Pfizer integration interfaces using webMethods and JDE 9.1 – Manufacturing module

Role & Contribution: Team Leader

- Involved in development of MPD-Pfizer interfaces.
- Co-ordinated with internal and external stakeholder to understand the business requirement for the integration flows.
- Involved in end to end testing, IQ preparation and OQ support.

Project 6

- **Project Name:** Catalent Pharma Solutions
- **Team Size:** 15
- **Start Date:** Mar 2018
- **End Date:** May 2018
- **Project Description:** Shire integration interfaces using webMethods, JDE9.1 and fusionConnect

Role & Contribution: Team Leader

- Involved in development of Shire interfaces.
- Co-ordinated with internal and external stakeholder to understand the business requirement for the integration flows.
- Involved in end to end testing, IQ preparation and OQ support.

Project 7

- **Project Name:** Legacy_Support for Cement Manufacturing

- **Team Size:** 25
- **Start Date:** June 2016
- **End Date:** Mar 2018
- **Project Description:**
- The scope of the project is to provide application support (bug fix and enhancement) for all the webMethods interfaces.
- On demand development of various country specific interfaces for EMEA region.

Role & Contribution: Senior Developer

- Involved in integration (application and operation) production support of 20+ template and country specific flows.
- Involved in integration development and deployment of template and country specific flows across various environments.
- Co-ordinated with all stakeholders (internal and external) to meet the business requirement and also helped them in resolving issues.
- Co-ordinated directly with clients (via calls or emails) for new requirements, issue resolution, estimate calls, etc.
- Developed many critical enhancements and fixed critical bugs independently for seamless integration of data into target application.
- Resolved territory gateway issue for one of the country so that data flows seamlessly across 2 different brokers.

Project 8

- **Project Name:** EAICC – EI – Lafarge
- **Team Size:** 30
- **Start Date:** June 2014
- **End Date:** June 2016
- **Project Description:** The scope of the Lafarge EAM Project is to provide baseline webMethods code for integration to different service hubs

Role & Contribution: Developer

- Involved in development of 10+ template flows
- Co-ordinated with internal stakeholder to meet the business requirement.
- Developed many critical development with respect to multiple interfaces.
- Involved in fixing critical bugs, preparation of TSD and code deployment across various environments.
- Involved in Level1 & Level2 Support of template flows.

Project 9

- **Project Name:** JP1/IM-SS Commands
- **Team Size:** 10
- **Start Date:** August 2013
- **End Date:** May 2014
- **Project Description:** The main scope of the project was to provide Command support for IMSS and IMCF commands. Supporting the functionality of view through command line interface is the main objective of the project.

Role & Contribution: Team Member

- Involved in preparation of test cases.
- Involved in the development of the profile collection and profile reflection command.
- Co-ordinated with testing team for identification of critical defects.
- Worked on preparing HLD, LLD documentation and queries on database.
- Involved in Testing and identified critical defects.
